

At Domaine Karanika we produce the finest quality sparkling and still wines in total harmony with nature without any concession to the health of people and the earth. We always aim to offer straightforward and honest wines. Wines that ‘breathe terroir’, are crystal clear, very aromatic, with considerable length.

Our organic/ biodynamic vineyards at the Amyndeo plateau in the far North-west of Greece include old to very old ungrafted Xinomavro vines, the younger Assyrtiko and the almost forgotten Limniona.

Pioneers in the use of the traditional method (méthode traditionnelle) in Greece, our internationally recognized sparkling wines have won the top position among the finest wines of the Greek vineyard and equally compete with the international ones.
